

AFTER THREE CLUB INCLUSION POLICY

The After 3 Club will endeavour to be inclusive and not discriminate against any child who wishes to attend the club.

We will endeavour to welcome children with disabilities, educational or behavioural needs.

We will value the individuality of all children and our aim will be to cater to those individual needs and provide a safe, caring and stimulating environment where a child can experience self developmental play.

We will endeavour to work along side the parents/carers and the school to support any child with educational or behavioural needs. We will seek advice and undertake appropriate training where possible to help support individual children.

We will endeavour to educate the children at ATC to respect and value children's individuality and to be inclusive in their play.

We will regularly review and monitor the effectiveness of our practice in this area.
